The Positive Side of Drought & Drought Planning
by Jim Faulstich

Why plan for drought (disaster)?

1. Work with Nature
2. Diversity
3. Flexibility
4. Soil Health

Profit or Sustainability = 2. Diversity
or Resiliency

Work with Nature

Increase Diversity
Cover Crops

Enterprise diversity

Flexibility

320 cows/acre/day

Soil Health/Sustainability
A Drought Plan is a Survival Plan

Water Management

August 3, 2012

Quality of Life

Keep our next generation on the land & in the community
