What do you want to be?

The Grazing Livestock Systems major is diverse in its opportunities. Students prepare for careers in livestock, range, and economic management. Here are just a few of the opportunities this major will lead to:

**Rangeland Management Specialist**

Government Agencies
Help ranchers develop good grazing systems by developing a conservation plan, give advice on best grasses to grow and ways to protect and improve rangeland.

**Financial Specialist**

Farm Credit Agencies
Responsible for processing of new loans and servicing actions on all existing loans that require minimal analysis. Develop and maintain strong working relationship with customers. Provide support to Financial Officer in preparation of loan packages and sales and marketing activities.

**Ranch Manager**

Commercial Ranches
Responsible for cattle and range management. Oversees ranch operations including: financial assessment of operation, breeding and calving, and water and grass management.

**Extension Educator**

University Extension
Educators have faculty status and are affiliated with academic departments on campus. Primary function of educators is outreach education to citizens across the state through research-based programming.

**Loan Officer**

Commercial Banks
Provide credit analysis of livestock producer's loan application. Emphasis on customer relations and management. Conduct field visits and provide business development advice.

**Managing Editor**

Trade Publications
Be involved in the production of a national magazine that provides information to cattle producers on cattle and range management, parasites, markets, the economy and so much more.

**Land Steward**

Private Conservation Organizations
Develops and implements plans for preserve and natural area stewardship work. Preserve management responsibilities may include species monitoring and research, prescribed burning and field trips. At selected preserves may manage livestock, grazing plans and agricultural leases.

Endless Opportunities...
Grazing Livestock Systems.
