## TOTAL: 120 credit hours

* UNL requires at least one course in each of 10 ACE
(Achievement-Centered Education) areas in order to:
- Develop intellectual and practical skills, including proficiency in written, oral, and visual communication; inquiry techniques; critical and creative thinking; quantitative applications; information assessment; teamwork; and problem-solving.
- Build knowledge of diverse peoples and cultures and of the natural and physical world through the study of mathematics, sciences and technologies, histories, humanities, arts, social sciences, and human diversity.
- Integrate these abilities and capacities, adapting them to new settings, questions, and responsibilities.
