

# RANGELAND MANAGEMENT MINOR

*Help our grasslands grow and thrive.*

Learn how to protect and sustain one of our most important ecosystems, the grasslands. The Rangeland Management minor explores the important role that plants, animals and soil play in shaping grassland landscapes. Students dive deeper into land management strategies, preparing them to lead in the conservation and stewardship of these vital ecosystems.

## GET IN THE FIELD

Learn among 20,000 acres of grassland properties the Center and its University partners maintain across Nebraska.

## GET CERTIFIED

Our program offers a range of professional certifications that give Huskers a leg up in jumpstarting their careers.

## LEARN BY DOING

Students will leverage the Center's vast professional network to earn internships while completing the coursework that fulfills the federal 0454 Rangeland Management Specialist requirements.

## GO BEYOND THE CLASSROOM

Join the Range Management Club to meet grassland professionals, connect with Husker peers and compete nationally at the Society for Range Management meetings.

CENTER FOR GRASSLAND STUDIES

# COURSES THAT WILL IGNITE YOUR PASSIONS

Choose from a wide array of classes that blend hands-on learning, real-world experiences and professional mentorship, preparing you for your career.

| REQUIRED COURSES                                                               |
|--------------------------------------------------------------------------------|
| NRES 438: Grassland Conservation: Planning and Management                      |
| PLAS 245 / NRES 245: Introduction to Grassland Ecology and Management          |

| PLAS 442 / GRAS 442 / NRES 442 / RNGE 442: Wildland Plants                     |
| PLAS 444 / GRAS 444 / NRES 444 / RNGE 444: Ecosystem Monitoring and Assessment |

## FORM YOUR CAREER CONNECTIONS HERE

Students have gone on to work in positions like:

- Rangeland Management Specialist
- Grassland Ecologist
- Land Steward
- Natural Resource Manager
- Restoration Ecologist
- Public Lands Manager
- Fire Ecologist
- Wildlife Biologist
- Habitat Biologist
- Conservation Biologist
- Environmental Consultant
- Environmental Educator
- Science Communicator
- Graduate Student
- Ecological Research Assistant
- Range Conservationist
- Park Ranger
- Range and Wildlife Program Coordinator
